document(s) and determine the extent of the materiality of the document disclosures with respect to

the present invention.

The discussion of any art and the citation of any document(s) herein is not to be construed

as an admission that the art or document disclosure is necessarily within the invention field of

may be relevant to the instant patent application, and/or that the art or document disclosure is

otherwise necessarily prior art as defined by the patent law with respect to the instant invention and

application.

Also, there is reserved the right to later set forth how the instant invention is distinguished

over the disclosure of any document or other art, including the disclosures of the art and

document(s) recited herein, that may be cited by the Examiner in rejecting a claim in the instant
